NOTHING SUCCEEDS LIKE SUCCESS.

The reason RADAM'S MICROBE KILLER is the most wonderful medicine is because it has never failed in any instance, no matter what the disease, from Leprosy to the simplest disease known to the human system. The scientific men of to-day claim and prove that every disease is

Caused by Microbes, —AND—
Radam's Microbe Killer
Exterminates the microbes and drives them out of the system, and when that is done you cannot have an ache or pain. No matter what the disease, whether a simple case of malaria fever or a combination of diseases, we cure them all at the same time, as we treat all diseases constitutionally.

Asthma, Consumption, Catarrh, Bronchitis Rheumatism, Kidney and Liver Disease, Chills and Fever, Female Troubles, in all its forms, and in fact, every disease known to the human system.

ROANOKE, THE MAGIC CITY.

Interesting Facts About Roanoke Worth Knowing.

Roanoke's Population—Its Location and Environs—Its Railroad Facilities. Its Hotels and Factories—Building Operations—Real Estate Transfers. Companies Chartered During 1890. Improvements to be Made in 1891.

Roanoke has a population of 32,000. Its citizens are from nearly every State in the Union. Eight years ago it had 600 people. Its growth at present is on a more solid basis and more rapid than ever before in its history.

Roanoke is located at the junction of the Shenandoah and Roanoke valleys. Its altitude is 907 feet and it is surrounded by a rich agricultural and mineral country.

Roanoke is distant just eight hours ride from Washington and Norfolk, nine from Baltimore, twelve from Philadelphia and fourteen from New York. It is situated at the junction of the Shenandoah Valley and Norfolk and Western railroads, both trunk lines, and is easily reached from any section of the country.

The Roanoke and Southern railroad is now being built to this place from Winston, N. C., and will in a year's time open up the trade of the Carolinas to this section. The Valley Branch of the Baltimore and Ohio runs to Lexington, forty miles distant, and a road filling the connecting link will be constructed to Roanoke in a short time.

The growth of the city dates from 1882, when the headquarters of the Norfolk and Western were removed here from Lynchburg, the Shenandoah Valley road was completed, and the Roanoke Machine Works, employing at present 1,700 hands, was established. Since then millions of dollars have flowed into the city in the establishment of manufactures and other business enterprises.

Coal and iron and the rich agricultural lands of the section have contributed to the growth.

Roanoke has sixty-five miles of streets and eight miles of street railway inside the corporate limits. A dummy line extends to Vinton, a distance of two miles east, and to Salem, six miles west. Throughout the city electricity, in a short time, will take the place of horses as motive power.

The water works are sufficient to furnish a city of 50,000 inhabitants. The supply comes from a pure, cold spring that gushes from the side of Mill mountain, and is without equal in any city in the country. It is undoubtedly a specific for many forms of kidney disease.

Light is furnished by the Gas Company and the Electric Light and Motor Power Company.

The property valuation, according to the assessment of this year, is nearly \$9,000,000, besides the railroad property and the Roanoke Machine Works. The increase in the value of realty was about \$5,000,000 over the previous assessment of four years ago; but present values are many millions in excess of those given.

There are four fine hotels—Hotel Roanoke, the Ponce de Leon, the Continental, and Hotel Felix—besides a number of smaller ones. All of them are crowded and constantly turning away guests.

Roanoke is well supplied with

BANKING FACILITIES.

The First National Bank has a capital of \$100,000; the National Exchange Bank, a capital of \$100,000; the Citizens National Bank, a capital of \$100,000; the Commercial National Bank, a capital of \$100,000; the Roanoke Trust, Loan and Safe Deposit Company, a capital of \$250,000; the Traders' Loan, Trust and Deposit Company, a capital of \$100,000; the Fidelity Loan and Trust Company, a capital of \$200,000, and several private banking concerns transact a large financial business.

All the leading denominations have churches in the city, and there are a number of new churches going up, with more soon to be started. The Southern Methodist, Presbyterian and Catholic churches have handsome brick edifices. The Baptists are erecting a fine church, and the Lutherans will soon begin the erection of a \$10,000 structure. The Christian sect and Northern Methodist churches also have neat houses of worship. The city has a number of excellent public and private schools.

There are three fire companies, with 150 members and modern equipments. The Roanoke Machine Works, with a capital of \$5,000,000, pays out \$65,000 per month in wages to employees. About \$5,000,000 a year is paid in the city for wages.

This list is in no sense a complete one. It is given to show the diversity of industries in Roanoke. Scores of en-

terprises, employing capital of from \$5,000 to \$25,000, are omitted for lack of space. Numerous enterprises, with hundreds of employees and capital reckoned by the hundred thousand, are negotiating for a foothold in this South-western Golconda, and are coming monthly, weekly, almost daily.

COMPANIES ORGANIZED IN 1890.

During 1890 132 companies were organized in Roanoke with an aggregate minimum capital of \$10,346,300. These companies are briefly summarized below:

Seventy-five land and real estate investment companies with an aggregate capital of \$5,864,300.

Two cigarrette machine companies, aggregate capital of \$400,000.
One grocery and milling company, capital \$75,000.
One coupling company, capital \$100,000.

One sloop manufacturing company, \$30,000.
One paper bag manufacturing company, \$100,000.

Five marble companies with an aggregate capital of \$230,000.
One bridge and iron company, authorized capital, \$500,000.

Two power companies, aggregate capital, \$25,000.

Two paving companies, \$20,000.
One street railway company, \$15,000.
One engine company, \$150,000.
One cold storage company, \$50,000.
Two banking companies, \$150,000.

Four loan, trust and finance companies, \$200,000.
Academy of Music Company, \$150,000.
One steam generator company, \$250,000.
One drug company, \$4,500.
Three oil companies, \$92,000.
One brewing company, \$75,000.
Five coal, coke and iron companies, \$740,000.

Ten building companies, with capital aggregating, \$4,330,000.

For the year 1890, the charter books show that forty-nine charters were granted with an aggregate minimum capital of \$1,721,250.

The increase in the number of charters in 1890 over 1889 will be seen to be eighty-three, and the increase in the minimum capital \$8,525,050.

The companies chartered during the year 1889 are summarized as follows: Fifteen land companies with a capital of \$495,250; five investment companies with a capital stock of \$70,000; two iron companies with a capital stock of \$250,000; three brick companies with a capital stock of \$31,000; two street railway companies with a capital of \$12,500; three medicinal spring companies with a capital of \$32,000; three banks with a capital of \$110,000; two machine companies with a capital of \$175,000; one phonograph company with a capital of \$300,000; a carriage factory with \$25,000 capital; one hydraulic engine company with a capital of \$360,000; one electric light company with \$25,000 capital; one literary and benevolent association with \$5,000 capital; one zinc company with a capital of \$500,000; a building association with a capital of \$50,000; an opera house company with a capital of \$20,000; one lumber company with \$20,000 capital; one driving park association without \$15,000; one gas and water company with \$500,000 capital; one bath company with a capital of \$20,000; one chemical company with \$5,000 capital; one wheat separator company with a capital of \$15,000.

REAL ESTATE TRANSFERS.

The real estate transactions last year amounted to \$17,067,960 from 5,103 transfers.

For 1889 the real estate transactions amounted to about \$7,000,000 from about 3,000 real estate transfers, so that the increase in Roanoke's real estate transfers during 1890 over 1889 was approximately \$10,000,000, and the increase in the number of deeds, 2,000.

Over \$2,000,000 were spent on buildings in the year 1890 in Roanoke. The number of houses built was about 1,000 or 1,250, and the number of men given employment in the construction of those buildings, from the mason who laid the foundation stones to the painter who put on the last finishing touches, was 1,200.

In 1889, the previous year, 900 houses were built at an average cost of \$1,200 each. The year 1888 witnessed the erection of 500 buildings.

The improvements in 1891 will be even greater than the past. \$300,000 is to be appropriated on the 17th of March for street paving and providing an efficient sewer system.

The Duval Engine Works, of Zanesville, Ohio, with a capital of \$60,000 and employing 200 men, will be removed here.

A large plant for the manufacture of shell hardware with a capital of \$400,000, employing 350 men, will be moved here from New England.

The Norfolk and Western will build a handsome new union depot, the finest in the State.

A glass factory has been secured and contracts for several hundred thousand dollars' worth of new buildings have been made.

Duncan Sinclair, of the Roanoke Construction Company, died of liver trouble a few days ago.

Mayor's Court.

Mayor Evans had a light docket at his court yesterday morning. A gang of crapshooters, composed of Wesley Hunt, William Smith, Carey May and George Reynolds, defended their case by employing A. J. Oliver to defend them. After hearing the testimony, which was pretty long and very conflicting, the mayor dismissed the charge, but admonished the officers to arrest every person caught at unlawful gaming.

Jeff Wade was brought in by Officer Vest on the charge of talking to the prisoners in the city jail. Jeff claimed he had been called to in passing, and the mayor dismissed him on the promise not to loiter around the jail again.

Good Looks.

Good looks are more than skin deep; depending upon a healthy condition of all the vital organs. If the liver be inactive, you have a Bilious Look, if your stomach be disordered you have a Dyspeptic Look and if your kidneys be affected you have a Pinched Look. WEDDING PRESENTS.

Select Sensible Ones—A New York Bride's Elegant Display.

Wedding gifts in these latter days are mostly sensible, solid, original and artistic, and, excepting the usual family gifts of silverware in large and small cases and sets, there is an entire absence of the butter dish and spoon-holder mania. "Something out of the ordinary," says the New York Post, is now sought after, and as a result the bride has not eight or ten duplicates of a certain gift. It is still so much the fashion to light the parlors and dining and reception rooms with beautifully shaded lamps that these in all sizes and designs still figure very prominently among wedding-presents. A very large and expensive Venetian lamp in bronze and gold, set with semi-precious gems, shone among the choice gifts to a recent bride of great wealth, living in New York City. Another lamp sent from Rome was of gold and enamel, the cream enamel center portions upon the four sides of the square receiver being superbly hand-painted with four distinct types of womanly beauty—Italian, English, Spanish and American. A third lamp, a superb Oriental model was of black onyx, gold and pearl, with finishings of fine Indian work in gold and rocco. Lamps showing odd combinations of Mexican onyx and Doulton ware were presented. Among other gifts were a pair of beautiful white eider-cloth rugs; Wagner's operas entire, magnificently bound; some old Venetian lace flouncing; a piece of richest silk velvet direct from Lyons looms; a Mexican onyx cabinet completely filled with gifts, the cabinet from the professors and teachers of a certain college, the gifts from the bride's college-class graduates; silks direct from China, furs from Russia; magnificently framed oil paintings and engravings; forty-eight pairs of Suede gloves in solid silver boxes, four large uncut diamonds in a solid gold jewel box; a box of small birds of rarest plumage for trimming a ball toilet from the Isle of Trinidad; and twelve yards of cream velvet and twelve of Mermet-rose velvet, exquisitely hand-painted.

A WORM-LIT SEA.

Venice Lying in a Bath of Glory When Night Falls on the Ocean.

During the whole of the past year, as well as the last few months of 1889, the whole of the sea of Venice has been as one vast expanse of phosphorescent waves whenever lashed to even the slightest extent by the winds. Formerly, says the New York Journal, this luminous appearance had been noticed only at intervals of about ten or fifteen years, then only from the beginning of summer until about the end of harvest, and in places abounding with sea grass.

Now every thing seems changed, the whole surface of the sea or gulf appearing as a sea of pale white fire as soon as darkness sets in on a windy night. In calm nooks the mere drawing of a stick or cane back and forth through the water is sufficient to give the effect of an electric flash, the light dying out and again returning with the ebullitions of the water. A flask filled with the water emits no light until shaken violently; the introduction of a lead pencil or small stick, however, will cause the fluid to glow with greater intensity than any amount of shaking on the part of the experimenter.

Strained through a fine cloth the water loses all of its peculiar properties, they having been imparted to the cloth, which now flickers and glows all over the entire surface like the spot where a damp match has been scratched in the dark. After the last-mentioned peculiarity was noticed scientists made examinations of cloths used in such operations and were rewarded for their pains by the discovery of the light-giving midge, a minute worm or maggot, scarcely the one-hundredth of an inch in length, each bow-shaped and very lively.

Each of these little creatures is provided with twenty-two mammillae instead of feet, eleven on each side, and has eleven luminous rings around his tiny body. Persons living on the shores of the gulf say that when the waters sparkle more than usual it is a sure sign of a storm.

Short on Family Names.

One of the oddities of fashionable society in Philadelphia, says the Times of that city, which is puzzling to strangers, is the number of young ladies met with and classed as belles who bear the same family name. Until recently it has not been considered good form to use, except in intimate intercourse, young ladies' first names, but now it is not only necessary, but, there being daughters of different branches of the same family bearing the same Christian name, it has been found convenient to number them as in the case of young men, and such titles as Miss Arabella Rittenhouse II. and Miss Regina Pedigree III. are found on cards and invitations. This, of course, can not be carried out in introductions, and as there are at least twenty families with young ladies bearing the same name, though only distantly related, the effect at a large party is very confusing. For instance, there are twenty-eight Miss Biddles.

Everybody Like Ah Sin.

One of the problems before the Legislative Council of the little but important colony of Hong Kong, which has recently assembled, is to checkmate the willingness of the Heathen Chinese in two financial connections, bankruptcy and gambling. The Chinese have hitherto shown themselves great adepts at getting through the meshes of ordinary bankruptcy laws. As for the attempt to put down the gambling mania in the colony, the opinion of many is that it would be just as well to introduce an ordinance for the suppression of the Pacific Ocean. The Chinese are such old adepts at bribing off superintendents of gambling houses that one has to be sanguine, indeed, to believe that the provisions of an ordinance with this object, however carefully devised, can be effectually carried out. At the present time the amount of gambling which goes on is little short of a scandal.

TRUSTEES' SALES.

TRUSTEES' SALE—By virtue of a deed of trust executed to me by T. W. Spindle, dated the 5th day of April, 1890, and recorded in the clerk's office of the Hustings Court of the city of Roanoke, in deed book No. 67, in trust to secure to J. J. Kemp the payment of the sum of four hundred and sixty-six dollars and sixty-six cents (\$466.66), secured by two certain interest-bearing negotiable notes, of even date with the said deed of trust, drawn by the said T. W. Spindle, each for the sum of \$233.33, and payable to J. J. Kemp, or order, in one and two years thereof, and default having been made in the payment of the said notes, at the request of the said J. J. Kemp, and in accordance with the terms of the deed of trust, I, the undersigned, the highest bidder at public auction in front of the courthouse in the city of Roanoke, on THURSDAY, MAY 14th, 1891, at 12 M., a one-half undivided interest in those lots or parcels of land, designated as lots Nos. 1, 2, 3 and 4 in section No. 22, according to the map of the Hyde Park Land Company, containing lots fronting fifty feet on the north side of Center avenue and extending back between parallel lines 130 feet to an alley.

TERMS: Cash sufficient to pay cost of sale, as provided for in said deed of trust, and to pay the sum of \$233.33, with interest from April 5th, 1890, to the date of sale, and the balance, if any, to be made known on day of sale.
April 25-tds FRANCIS B. KEMP, Trustee.

TRUSTEES' SALE—By virtue of a deed of trust executed to me by W. J. & L. Blair, Jr., dated the 22nd of March, 1890, and recorded in the clerk's office of the Hustings Court of the city of Roanoke, in deed book No. 67, page 48, for W. J. & L. Blair, Jr., Default having been made in the terms of the said deed of trust, and having been duly notified by the beneficiary thereunder, I will sell at public auction in front of the courthouse in the city of Roanoke, on TUESDAY, THE 25TH DAY OF APRIL, 1891, at 12 M., the following described parcel of land with its appurtenances, beginning at a point on the west side of Nelson street, 180 feet to the north end of an alley, thence north 80 degrees west 150 feet to an alley, thence same north 10 degrees east 50 feet to a point; thence south 88 degrees east 150 feet to Nelson street, thence with the same south 10 degrees west 50 feet to the beginning.

TERMS OF SALE: Cash, as to the costs of sale, and the sum of three hundred dollars with interest from the date of March, 1890, and the remainder in one and two years with interest from the date of sale, to be secured
